## The definition of the compound word of noun complement

ZHANG Tao

Chinese culture constitute Chongqing normal university Chongqing 400047 China

**Abstract** The definition of the compound word of noun complement is always vague and light in the scientific circle of Chinese language study. Recently there is a tendency of broadening in the field and even with a new name from the angle of the culture explanation. At the base of a full description of the compound word of noun complement and compared with the compound word of partial structure this paper has demonstrated that most of the compound words of noun complement along to the kind of the partial structure with the object at the back.

**Key words** noun complement compound word definition
